- Website and Software Localization
- International SEO/SEM
- Testing/QA
- Voiceovers and Subtitling
- Multilingual Recruiting and Staffing
- Learning and Training Localization

Dedication to Quality

Translations.com is the largest localization services firm to be fully **ISO 9001:2000 certified** in all offices and production centers worldwide. This certification is the backbone of our quality management system and ensures that you are receiving only the highest-quality deliverables—every time.

Linguistic Expertise

In order to ensure that the most qualified linguistic and subject-matter experts are working on each project, we created the **Translations.com Linguist Certification (TLC) program**. In addition to being a native speaker of the target language, every Translations.com-certified linguist must undergo a rigorous battery of tests in his or her area of expertise.

Customized and Powerful Technology

Translations.com's **GlobalLink™ Localization Suite** is a modular set of next-generation software applications designed to maximize localization process efficiencies, improve the quality and consistency of translations, speed time to market, and reduce costs across the enterprise. In addition, our revolutionary **GlobalLink™ OneLink** technology enables clients to create and deploy multilingual websites with virtually no IT involvement in as little as 30 days.

Partnering with You

Among our strongest “value-added” features is our commitment to offering **superior client service**. To that end, every client is assigned a dedicated account manager – available 24/7/365 – as well as a hand-selected team of technical and linguistic resources with in-depth expertise in your industry.

Contact us today to put the world's leading localization professionals to work for you.
